Climate-Neutral and Smart Cities: Planning, Piloting, Inspiring M100Cities

Specific Objectives:

- Provision of new formal and informal learning opportunities in the field of climate change/neutralty in an urban context.
- Developing a network of youth workers that promotes climate neutrality, including through intergenerational activities.
- Enhancing active citizenship among young residents interested in climate neutrality.
- Promoting climate-neutrality behaviours through street art delivered by local young artists.
- Exchange of best practices and experiences between Romanian and Icelandic youth actors involved in climate actions.

Actions:

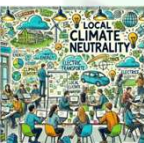

A.1. Transversal facultative university curriculum in the area of urban climate resilience

A.2. Educational package for the "Green Week" programme in local schools

A.3. Establishment of a network of 10 Climate Neutrality Young Ambassadors

A.4. Organizing an ideathon for the identification and promotion of the best solutions proposed by pupils and students to meet the local climate neutrality targets

A.5. Design competition for street art that inspires climate neutrality behaviors

A.6. Tech for Climate (Innovative IT Development Programme)

A.7. Study Visits in Cluj-Napoca, Reykjavík and Oslo

Partners:

- Cluj-Napoca Municipality (Romania)
